RUNNING PROFILE

Ultimate cushioning remains at the forefront of our pinnacle high performance Spire 5 trainer. With a modern and sleek design coupled with our newest and unprecedented QU!KFLAME midsole foam technology, this duo is sure to deliver a perfect blend of superior comfort, unsurpassed rebound and durability.

AUDIENCE

This shoe is for runners seeking a high performance, premium cushioned shoe, that delivers comfort for mid to high mileage. It is a dynamic workhorse that is built to go the distance.

FEATURES

- **New simplistic modern** upper design with a **progressive new 3D logo** iteration on the quarter panel.
- More ventilation and freedom for natural foot movement created by a **Breathable Engineered Mesh Upper**.
- **Anatomically designed Pressure Free Tongue** removes pressure on the ankle during dorsiflexion. It additionally reduces stress at the top of the foot by combining super-soft materials with an anatomical pattern and thin padding.
- Secure, supportive and comfortable mid-foot and heel environment maintained by the **MORPHIT system** secures a perfect lock-down during a run.
- **Ortholite foam insoles** provide long-lasting comfort, excellent moisture management and a high-level of breathability achieved through open-cell **Ortholite** insoles utilizing 20% recycled content.
- The upper layer of the platform combines a full length **QUIKSPRING+** together with the high rebound **QUIKFLAME** Foam Technology. These combined will ensure great comfort and long-lasting cushioning.
- **One-Piece Blown Rubber** applied to the forefoot outsole ensures cushioning and grip whilst still being lightweight.
- **Anti-abrasion rubber** applied to the rear-foot platform ensures long-lasting durability.
- **Wider and thicker platform**, even heavier runners will feel the comfort, cushioning and stability in very stride.

TECHNICAL OVERVIEW

NEUTRAL

MORPHIT

Secure, supportive and comfortable midfoot and heel environment maintained by the **MORPHIT system** secures a perfect lockdown during a run.

UPDATE

ANATOMICAL PRESSURE FREE TONGUE DESIGN

The new design contours the top of the ankle for a more custom fit. It removes pressure and stress from the top of the foot during dorsiflexion by combining super-soft materials with an anatomical pattern.

Ortholite®

COMFORT FOAM INSOLES

Long-lasting comfort, excellent moisture management and a high-level of breathability achieved through open-cell **Ortholite** insoles utilizing 20% recycled content.

PLUSH HEEL COLLAR SHAPE

Slippage prevention for a predictable hassle-free run is secured by supportive heel collar design and comfortable lining to cradle the heel.

NEW

3D PRINT DESIGN

Progressive 3D printed logo on quarter panels

UPDATE

SUPPORTIVE HEEL DESIGN

The heel film and high frequency welding construction, allows for a very supportive and comfortable heel fit.

UPDATE

DOUBLE ENGINEERED MESH

is innovatively designed double jacquard mesh for enhanced ventilation and ease of movement.

QUIK SPRING+

Cushioning and responsiveness at a reduced weight to elevate the running experience with **QUIKSPRING+**, a molecular modified base EVA material.

NEW TECHNOLOGY

QUIKFLAME

Newly developed PEBA nylon elastomer offers superior cushioning and performance. It is extremely springy and 45% lighter than traditional EVA, and durable enough to maintain responsiveness. It delivers excellent flexibility, high resilience and rigidity, bringing a continuous forward momentum for runners.

LIGHTWEIGHT BLOWN RUBBER

Applied to the forefoot and heel area to provide superior cushioning at a decreased weight, delivering a smoother ride.

HIGH ABRASION RUBBER TECHNOLOGY: H.A.R.T.

The anti-abrasion rubber in rear provides grip for a stable running experience.
